

## **Steps for RXR within or near project limits**

1. Determine if RXR within project limits  
If work within is 15 feet of crossing (25 feet Wisconsin Central), railroad coordination clause required
2. If work needed at RXR, contact Tina Hisson (517) 335-2592, MultiModal Bureau, Rail Safety Section, Upran, to set up Diagnostic Team Review (DTR) meeting.
3. Contact Brett Kach, (517) 335-2272, Trunkline Railroad Coordination for guidance or review of any contract documents (i.e., Special Provisions, railroad Coordination Clauses) or to any questions regarding railroad coordination needed for trunkline projects.
